Drupal Training Programs

Drupak has become a **pioneer in Drupal education** in Pakistan and beyond. Our programs are designed to cover the entire Drupal ecosystem:

- **Site Building** – Empowering non-developers to build fully functional websites.
- **Theme Development** – Hands-on training for building professional and responsive themes.
- **Module Development** – Advanced skills for extending Drupal's functionality.
- **Career Development Courses** – Preparing developers for international jobs and freelance opportunities.

We also host **DrupalCamps, Global Training Days, and community workshops**, making Drupal accessible to students, professionals, and enterprises alike.

Our Process – The 5-Phase Model

1. **Discovery & Planning** – Understanding client goals and mapping requirements.
2. **Design & Architecture** – Crafting user-friendly and scalable website architecture.
3. **Development** – Implementing Drupal-based solutions with best practices.
4. **Testing & Deployment** – Ensuring performance, security, and reliability.
5. **Maintenance & Growth** – Long-term support and continuous improvement.
